From: Marybeth Casey, Assistant Commissioner
Rose LeRoy, Director of Educational Data and Research

Subject: New Student-Level Digital Equity Data Collection

Date: June 8, 2021

This memo provides information on the new collection of student digital equity data in the Student Information Repository System (SIRS) for public school

The new Student Digital Access data elements provided as an attachment to this memo will be added to the data collection for every student in SIRS. The attachment details each element's name, definition, response options, and clarifications, as well as sample questions to provide to parents and guardians to ascertain the device and internet access students have at their places of residence. Likewise, this information will be included in the SIRS Manual and be updated as needed to assist the field with reporting requirements. This data will provide the most accurate picture of digital access and informing State Policy and providing Local Educational Agencies (LEAs) with programmatic and instructional information and needed supports to further outcomes in teaching and learning.

This data will be used on an ongoing basis throughout the year to help identify specific needs and target resources and funding opportunities when they become available.

regarding disparate access to devices and internet in students places of residence and inform State policy and initiatives to address gaps at the State level. Moving forward, in the 22-23SY and beyond, changes to the dates when extracts are pulled may occur and will be updated in our SIRS Manual (guidance). For all practical purposes, schools and districts should update and push data to the L2DW as often as practicable to provide the best picture of their digital access and equity at any given moment to assist the Department with providing resources to those entities who meet the qualifications of various funding sources.

The NYSED Office of Information and reporting Services has apprised Student Management System vendors of this new SIRS reporting requirement. Collection requirements for student management vendors will continue to be available on the [Vendor Support for School Districts and BOCES](#).

School districts, BOCES, and charter schools should ensure their data coordinators and chief

Element
Name

Element Name	Element Definition	Options	Clarifications	Example Parent /
--------------	--------------------	---------	----------------	------------------

	Element Name	Element Definition	Options	Clarifications	Example Parent / Guardian Questions
6	Internet Access In Residence	An indication of whether the student is able to access the internet in their primary place of residence.	Yes No	<p>Primary Residence - the residence where the student typically resides. If student has multiple residences that share equal time, use the residence that has the more limited access.</p> <p>If this is Yes, then the element 7 cannot be None. If this is No, elements 7 and 8 must be None and No.</p>	Do you have internet access in your home or the place you are living?
