PLANNING	
Curriculum Goal	Students explore future career possibilities by identifying the knowledge, skills, education, and training necessary for success within the health sciences field. Students examine data showing employment projections for health science careers. Students analyze the data and consider careers that will have the greatest shortages. Students investigate job tasks and requirements for positions in those health science careers. Students develop and present visuals to promote understanding of the careers amongst their classmates.
Essential Question(s)	<p>What knowledge and skills are necessary to demonstrate introductory understanding of the influences that societal, economic, and technological changes have on employment?</p> <p>What personal skills, abilities, and aptitudes are needed for success in health science careers?</p>
National Standards	<p>Common Career Technical Core Standards</p> <p>https://www.careertech.org/career-ready-practices</p> <p>Career Ready Practices</p> <ol style="list-style-type: none"> 1. Act as a responsible and contributing citizen and employee 4. Communicate clearly and effectively and with reason 10. Plan education and career paths aligned to personal goals 11. Use technology to enhance productivity 12.
