#### **Disclaimers**

For guidance related to Educator Evaluation plans, see NYSED Educator Evaluation Guidance. For a definition of terms related to Educator Evaluation, see the Educator Evaluation Glossary.

The Department will review the contents of each local educational agency's (LEA) Educator Evaluation plan as submitted using this online form, including required attachments, to determine if the plan rigorously complies with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Department approval does not imply endorsement of specific educational approaches in an LEA's plan.

Status Date: 10/25/2022 10:53 AM - Submitted

The Department reserves the right to request further information from an LEA to monitor compliance with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Each LEA is required to keep detailed records on file for each section of the currently implemented Educator Evaluation plan. Such detailed records must be provided to the Department upon request. The Department reserves the right to disapprove or require modification of an LEA's plan that does not rigorously adhere to the requirements of Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

The Department will not review any attachments other than those required in the online form. Any additional attachments supplied by the LEA are for informational purposes only for the teachers and principals reviewed under this Educator Evaluation plan. Statements and/or materials in such additional attachments have not been approved and/or endorsed by the Department. However, the Department considers void any other signed agreements between and among parties in any form that prevent, conflict, or interfere with full implementation of the Educator Evaluation plan approved by the Department. The Department also reserves the right to request further information from the LEA, as necessary, as part of its review of this plan.

If the Department reasonably believes through investigation, or otherwise, that statements made in this Educator Evaluation plan are not true or accurate, it reserves the right to reject or disapprove this plan at any time and/or to request additional information to determine the truth and/or accuracy of such statements.

#### **Educator Evaluation Assurances**

#### **SLO Assurances**

#### Please read the assurances below and check each box.

- Assure that each teacher has an SLO as determined locally in a manner consistent with the goal-setting process determined by the Commissioner.
- Assure that all student growth targets represent a minimum of one year of expected growth, as determined locally in a manner consistent with the Commissioner's goal-setting process. Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- 🗷 Assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- Assure that if a teacher's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the teacher's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.
- ☑ Assure that processes are in place for the superintendent to monitor SLOs.
- Assure that the final Student Performance category rating for each teacher will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved Educator Evaluation plan.
- Assure that for any SLO based, in part, on the New York State grade four science assessment, once the assessment is no longer administered the SLO will utilize only the remaining assessments.

### Retraining

Approximately how many hours of re-training (annual, periodic, or other frequency) will evaluators receive?

**Certification of Lead Evaluators** 

How often are lead evaluators certified?

✓ Annually

Please identify the party responsible for the certification and re-certification of lead evaluators.

☑ Board of Education

### Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the observation process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that observations are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability. Please check all that apply.

☑ Periodic calibration meetings and/or trainings

### **Required Student Performance Subcomponent**

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

100% of the Student Performance category if only the required subcomponent is used or locally determined if the optional subcomponent is selected.

#### Required Student Performance Measures

The required student performance measure for a principal may be either a student learning objective (SLO) or an input model, where the principal's overall rating shall be determined based on evidence of principal practice that promotes student growth related to the Leadership Standards.

Status Date: 10/25/2022 10:53 AM - Submitted

#### STUDENT LEARNING OBJECTIVES

For guidance on SLOs, see NYSED SLO Guidance.

SLO measures may be either individually attributed or collectively attributed.

#### Individually attributed measures

An individually attributed SLO is based on the learning outcomes of a student population within the principal's building or program.

> Individually attributed results: scores and ratings will be based on the growth of students in the principal's building/program in the current school year.

#### Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple buildings/programs of similar grade configuration or across multiple building/programs where the learning activities of one building/program indirectly contribute to student learning outcomes in another building/program. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where there is an opportunity for a collective impact on student learning:
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- · the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- · when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.
- > <u>Collectively attributed results</u>: scores and ratings for the selected principals will be based on the growth of <u>students in an LEA</u> who take the applicable assessments in the current school year.
- > <u>Collectively attributed group or team results</u>: scores and ratings for a group or team of principals will be based on the growth of <u>students in the group/team of</u> principals' buildings/programs in an LEA in the current school year.

#### ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

• State assessment(s); or

Assessment(s) that are selected from the list of State-approved:

- · third party assessments; or
- locally-developed assessments (district-, BOCES-, or regionally-developed).

Page Last Modified: 09/13/2022

### **Principal School Visit Category**

For guidance on the Principal School Visit category, see NYSED Educator Evaluation Guidance. For a definition of terms used in this section, see the Educator Evaluation Glossary.

For the school visit category, principals' shall be evaluated based on a State-approved rubric using multiple sources of evidence collected and incorporated into the school visit protocol. Where appropriate, such evidence may be aligned to building or district goals; provided, however, that professional goal-setting may not be used as evidence of teacher or principal effectiveness. Such evidence shall reflect school leadership practice aligned to the Leadership Standards and selected practice rubric.

### **Principal Practice Rubric**

Select a principal practice rubric from the menu of State-approved rubrics to assess principal practice based on ISLLC 2008 Standards (PSEL standards beginning in 2024-25).

Rubric Name	If more than one rubric is utilized, please indicate the group(s) of principals each rubric applies to.
Multidimensional Principal Performance Rubric	N/A

#### Please read the assurances below and check each box.

- Assure that the same rubric(s) is (are) used for all principals in the same or similar programs or grade configurations across the LEA, provided that LEAs may locally determine whether to use different rubrics for a principal assigned to different programs or grade configurations as indicated in the table above.
- Assure that the same rubric(s) is (are) used for all school visits for a principal across the school visit types in a given school year.

#### **Rubric Rating Process**

For more information on the Principal School Visit category see NYSED Educator Evaluation Guidance. For a definition of terms used in this section, see the Educator Evaluation Glossary.

The following is one example of how an LEA might score principal school visits using the selected practice rubric: Domains 1-4 of the MPPR rubric have been negotiated as observable. Domains 2 and 3 are weighted as 40% each, and Domains 1 and 4 are weighted as 10% each. For each school visit, evidence is collected for all observed subcomponents in a domain. A holistic score is then determined for each domain. These domain scores are weighted as indicated above to reach a final score for each school visit. Scores for each school visit are weighted equally and averaged to reach a final score for each school visit type. The LEA will ensure that all subcomponents designated as observable will be addressed at least once across the school visit cycle.

Use the following section to describe the process for rating and scoring the selected practice rubric consistent with the Department's regulations.

#### Please read the assurances below and check each box.

- Assure that the designation of components of the selected practice rubric as observable is locally negotiated.
- Assure that all components of the selected practice rubric designated as observable are assessed at least once, and that each of the ISLLC 2008 Leadership Standards (PSEL standards beginning in 2024-25) is covered, across the total number of annual school visits.
- Assure that a component designated as ineffective is rated one (1), a component designated as developing is rated two (2), a component designated as effective is rated three (3), and a component designated as highly effective is rated four (4).
- Assure that the process for assigning scores and/or ratings for each principal school visit is consistent with locally determined processes, including practice rubric component weighting consistent with the description in this plan.

#### Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the school visit process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that school visits are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability. Please check all that apply.
