The district created a COVID-19 Response Team that met weekly starting in May 2019. It was represented by School Officials, District/Local Medical Personnel, Local Government Officials, School Staff and Parents. The Response Team focused on the areas of Health/Safety (physical and emotional), Delivery of Instruction (virtual and in person), Nutrition and Transportation. The Team initially surveyed the school community to assess needs and to gauge the District's current response to the pandemic. District Officials communicated the Response Plan to staff and the community via four digital Town Hall meetings. The Response Team continued to meet bi-weekly throughout the COVID-19 pandemic. In addition, in each of the last three years the district has sent out a family engagement survey, a student voice survey, and a faculty and staff engagement survey. These surveys are used to monitor our plans and initiatives and to elicit feedback from all of our stakeholders.
