Legislation regarding Days in Year

In late 2018, the Governor signed legislation that will change the calculations of the hourly rate. There were technical issues with this bill when it was signed that needed to be resolved, and we have requested and are awaiting guidance. While we await a response we have been directed to ask schools to submit their claims based upon earlier years practice of including instructional and non-instructional days. Doing so will avoid having your entire claim in hold status while we await guidance on what we believe to be a small portion of the total reimbursement.
