Visual

Media Arts

- Toolkit Document to guide participants through training.
- Answers some common questions about media arts, who should teach it, and how visual art teachers can incorporate media arts into their curriculum.
- Overview and resource links: posters, glossary, and implementation guide.
- Think Slides to provoke thought and/or discussion.
- Comparison and anatomy of 1996 versus 2017 arts standards.
- Enduring understandings and enduring questions.
- Highlighting of New Artistic Processes: Creating, Presenting, Responding and Connecting.
- Implementation steps to transform old curriculum and additional resources.
- Sliding Scale.This sliding scale allows teachers to customize their curriculum to begin where students are and develop a level appropriate curriculum that moves students forward at a somewhat accelerated pace. The sliding scale was developed because media arts, theatre and Dance are not widely implemented in district at all levels.

Music

- Toolkit Document to guide participants through training.
- Overview and resource links: posters, glossary, and implementation guide.
- Think Slides to provoke thought and/or discussion.
